Pricila – The life of Mine

Once again after Jenifer school we started sharing our friendship in same school. Between this five years we became very close and best friends🥰.

Vinoth switched to my class after a few months.Then **Prici, Kalps, and Vinoth** got a little close to me, and they're from my neighbourhood area.

On June 5th 2012, I visited three of my favourite people at the same time. prici, Pradee and sai😁…

I enjoyed watching Sivakathikeyan's blooper videos with prici🤩…

I thought I wouldn't lose Jaga, but we haven't spoken since we started new school… I reasoned that it shouldn't have happened to my three best friends😓…

The majority of my time is spent on phone calls with Prici and Kalps…

Prici usually tells me not to get too close to the boys🤔 and not to support them in everything. Specially when it comes to Sai's things.

Why do I enjoy prici?
She is extremely fond of me. She tells me everything about herself and her family. She is close to my family. She isn't interested in friends with boys. She stands out from the crowd(individuality). If she doesn't like someone, she won't care what happens to them. I despise it when people say negative things about her to me. I even despise it when my parents talk about her. I'm familiar with her personality. "I want to be with you forever and ever🤗."

What is it about her that I dislike?
She despised actor Vijay and abuses him😏, which I despise. If I'm fed up with people and tell her, she won't forget and will speak with them. She was always proud of her church and used to say it was the best😑; she doesn't value guy friends😒; she believes that whoever is in a relationship will end up broken up😅; she will not rely on anyone like a stubborn person; and she will react on her face if she is not comfortable even sometimes insults people face to face😕.

Once I wrote letters to Prici, Chandu, Lakshmi, Pradee, and Sai and handed them all to Prici to read😌.

Those three usual dialogues i get from prici: "nee la nejama yen friend uh illa enemy uh"😂…" Yaara namunalum nambalam pasangala namba kudathu🤣"… "Oorla 10-15 friends vechu irukaravan la sandhoshama irukan ore oru frnd vechu Nan padura padu iruke"😂😂😂

A whole period We was talking about "sand"(Abilash) with Jeba, Sandy, Prici, and Kalai in class .Because one of us was a little taken with him. It's all girls thing😉

I've always thought that Sai and Prici have similar attitudes and personalities😕.

One day Prici gave me a slap. I was hurt, but I didn't say anything. She was slapped again because I knew she was upset with me about something so i left🧐.

Prici's went to sandy's house with our classmates for her bday. She informed me before leaving, and while she informed me, I felt a little pride.😌

Prici began conversing with Sai. He was always talking about Pradeep and Sai. I was a little envious because I couldn't talk them much😒.

2013-2014

It was cultural day for us. I was sitting alone in class, texting Arnold Anna. But I assumed Pric would be concerned🤔because I was alone in class.

Those were the days when I felt Pric showered her affection on me😍. I felt bad for scolding her in my previous writings😓.

After that, a number of issues between me and Prici were resolved, and she now speaks well and feels her care and love poured on me.🥰
